LETTER OF RECOMMENDATION

TO WHOM IT MAY CONCERN

Mr Baloyi joined the Department of Maritime Studies in the second half of the 2025 academic year. He assumed responsibility for the Mathematics module within the Bachelor of Marine Engineering programme. He was tasked with the immediate challenge of preparing a large cohort of students for their final exam as well as addressing learning gaps that became apparent following the departure of his predecessor due to health-related circumstances.

Mr Baloyi demonstrated exceptional professional commitment, often extending his efforts beyond standard working hours to support students. He adequately addressed the identified learning gaps, conducted comprehensive student assessments whilst also finalising the remainder of the syllabus. He also set both the main and reassessment summative assessments. All of this was done within a constrained timeframe. On the administrative side he submitted all marks on time and communicated well with the students.

His calm demeanour and ability to articulate challenging concepts in an accessible manner were instrumental to the successful completion of the module. As such, I unreservedly recommend Mr Baloyi for any future appointment within the academic domain and offer him my best wishes for his future endeavours.

Sincerely

Samkelisiwe Ntuli (Ms)
Acting Head of Department
